

Demand the Great Tasting, Quality Drinking Water You Deserve.

Leading a healthy life is a conscious decision—one that you need to work at on a daily basis. To help you feel and perform at your best, various health experts recommend drinking at least eight glasses of water every day. And now staying healthy and hydrated are easier than ever with the Culligan Good Water Machine® appliance—*offered exclusively through your local Culligan dealer.*

The Finest in Water Filtration

The *Culligan Good Water Machine* appliance's reverse osmosis (RO) filtration method improves the taste and odor of your drinking water and reduces microscopic impurities.* With reverse osmosis, water passes through an ultra-thin, semi-permeable membrane, which filters unwanted particles, such as sodium and lead. The result is the deliciously clear water you'd expect from the water experts at Culligan—available in the convenience of your own home, right at your fingertips.

With Culligan, Getting Clear, Great-Tasting Water Is Easy.

To enjoy the clean, invigorating water provided by the *Culligan Good Water Machine* appliance, just call your local Culligan expert who will professionally install the unit. Ideal for even the largest family, the *Culligan Good Water Machine* appliance is a cost-effective solution that will give you and your family great tasting Culligan® water for years to come. Even your kids will prefer the refreshing taste of your new, crystal-clear Culligan water—a great alternative to sugary drinks.

And don't limit yourself to just drinking the water. Use it for cooking and in a variety of other culinary ways to give you and your family:

- better-tasting coffee, tea and juices
- more flavorful soups, sauces and pasta
- richer baby formula
- clearer ice cubes
- crisper fruits and vegetables

Culligan®

Culligan Innovation and Reliability.

Four-Stage Filtration. Ensures Clear Great Tasting Water.

Automatic Shutoff Valve
Shuts off the system when the reservoir tank is full.

Sediment Filter
Screens out sediments and particles down to 5 microns that cause cloudy water.

Reverse Osmosis Membrane
Reduces dissolved substances such as radium, lead, arsenic, and many others.*

Carbon Filter
A carbon filter reduces elements that cause water to taste and smell unpleasant, including the taste and odor of chlorine.

Manifold Assembly
Houses three separate filter technologies in a unique space saving design.

Reservoir Tank
Durable, high-quality steel tank ensures you'll have a plentiful supply of refreshing water.

Designer Faucet
Delivers delicious water at the touch of a finger. Available in polished chrome or white.

Second Carbon Filter
Ensures your drinking water is clear and fresh.

* Consult the Performance Data Sheet for the specific contaminant reduction capabilities of this device.
Limited Lifetime Warranty on Good Water Machine® (excluding expendable filter cartridge & R.O. membrane)

- The Good Water Sentry™ Monitor option continually monitors the RO filter for optimum operation.
 - Green means quality Culligan water.
 - Yellow means it's time for a filter change.

The Culligan Good Water Machine® has been tested by NSF International and is certified to meet NSF standards for RO systems. (see back for details)

Trust The Water Experts®

Quality products
and services you
can count on.

For over 65 years, Culligan has led the water treatment industry in innovation and service. Culligan products are produced with world-class quality backed by solid warranties* and serviced by factory trained technicians.

Your local, reliable Culligan dealer will perform a complimentary, no obligation water analysis and help you chose the system that is just right for your home and family. Now that's service!

Why Millions Trust Culligan to Deliver Better Water

- ✓ All Culligan products are backed with a 100% Satisfaction Guarantee. If you're not completely satisfied within 30 days from the date of purchase, we'll refund your purchase price.
- ✓ Your local Culligan Man® has a full-line of quality water treatment products at affordable prices.
- ✓ We're ISO9001:2000 certified. All assembly takes place under exacting world-class quality control.
- ✓ Culligan products possess the industry's most state-of-the-art features because we maintain our own extensive research and development facility and no other water treatment company holds as many patents.
- ✓ With over 1,100 dealers worldwide and more than 75 countries globally, a *Culligan Man* is just around the corner to make sure you receive the Culligan water you've come to enjoy.
- ✓ Your local *Culligan Man* offers salt delivery, filter changes, financing and more, making Culligan a full-service water treatment company.

The Culligan Good Water Machine® is tested and certified by NSF International to NSF/ANSI Standard 58 for the reduction of:

Barium	Turbidity
Fluoride	Selenium
Trivalent Chromium	Cadmium
Hexavalent Chromium	Radium 226/228
Cyst ¹	Total Dissolved Solids
Lead	Copper
Nitrate/Nitrite ²	Pentavalent Arsenic ³

ISO 9001:2000
Certification

Good
Housekeeping

CAUTION: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts. Source water exceeding chemical parameters requires pre-treatment.

¹Certification for Cysts Reduction includes *Cryptosporidium* and *Giardia lamblia*.

²Only model AC-30N is rated for Nitrate reduction

³Conforms to NSF/ANSI 58 for pentavalent arsenic reduction. See performance data sheet and arsenic facts section (in Owner's Guide) for an explanation of reduction performance. Water systems using an in-line chlorinator should provide a one minute chlorine contact time before the RO system.
